Success Stories

Consulting Solutions

Acquisition Workforce Planning – The Aurelius Group (TAG) informs workforce planning by providing objective competency-based reports of the strengths and areas for improvements of large federal acquisition organizations. TAG can assist with developing AWF Human Capital Plans.

Acquisition Operations and Policy Support – Leveraging our senior federal acquisition and DAWIA certified experts, TAG can support civilian and defense policy and acquisition operations. Our team has deep experience in Federal Acquisition Certification (FAC) based programs.

Organizational Improvement – Using program management techniques, organizational development expertise, survey design and development skills, facilitation and communication skills, and subject matter expertise, TAG helps organizations improve performance to support agency missions.

Workforce Assessments – TAG designs, develops, and administers objective workforce assessments. Our team of subject matter experts, statisticians, psychometricians, education specialists, and technologists can assess your workforce to provide data for making informed decisions.

Human Capital Planning and Analytics Solutions

Performance Measurement and Gap Analysis – TAG delivers objective assessments of the workforce for a large federal agency, providing insight that improves strategic human capital planning.

Competency Modeling and Application – TAG's assessment capabilities help align individual development needs with recommended learning opportunities. Our team has applied competency models to over 3,600 question items and over 2,500 learning opportunities.

Psychometric and Statistical Analysis – The Aurelius Group's team includes experts in psychometrics and statistical analysis at the Masters and PhD level. In addition, TAG continuously works with academia to deliver innovative and scientifically rigorous results.

Training Development, Quality Control, and Delivery – TAG has combined our acquisition expertise and training delivery capabilities to deliver both classroom and virtual training to our client's workforce.

Technology Solutions

IT Project and Portfolio Management – Our team has delivered project management, CPIC, portfolio management, and IT governance solutions to federal agencies and private industry.

Software as a Service (SaaS) Solutions – TAG's technology consultants have selected, migrated, and supported cloud based solutions, resulting in increased flexibility, scalability, and overall cost savings.

Office 365 and SharePoint Solutions – Leveraging a decade of experience in SharePoint and Microsoft server products, our team has delivered and operated custom SharePoint solutions for federal agencies and private industry. Our team has successfully migrated clients to Office 365, Microsoft's cloud based productivity platform, resulting in significant cost savings and scalability.

Cloud-Based Web Applications and Infrastructure – TAG designed, built, and operates a virtualized cloud based infrastructure for a large federal agency, providing web applications for over 3000 users.

User Guides & Standard Operating Procedures – TAG developed and maintained illustrated Guides and SOPs for electronic systems.
